Fire District Receives New Rating After Inspection

State Officials Award New District Rating

RALEIGH - North Carolina Insurance Commissioner and State Fire Marshal Mike Causey announced today that the following Fire Districts completed their routine inspection and received the listed rating, on listed effective dates. The inspection, conducted by officials with the Department of Insurance Office of State Fire Marshal (OSFM), is required on a regular basis as part of the North Carolina Response Rating System (NCRRS). Among other things, the routine inspections look for proper staffing levels, sufficient equipment, proper maintenance of equipment, communications capabilities and availability of a water source.

District	Type	Rating	Effective
Conover	Municipal	4	03/01/2018
Conover Rural	Rural	4/9S	03/01/2018

The NCRRS rating system ranges from one (highest) to 10 (not recognized as a certified fire department by the state), with most rural departments falling into the 9S category. While lower ratings do not necessarily indicate poor service, a higher rating does suggest that a department is overall better equipped to respond to fires in its district. Higher ratings can also significantly lower homeowners insurance rates in that fire district.

"I'd like to congratulate Chief Hinson for the department's performance and for the hard work of all the department members," said Commissioner Causey. "The citizens in the Town of these districts should rest easy knowing they have a fine group of firefighters protecting them and their property in case of an emergency."

State law requires OSFM officials to inspect departments serving districts of 100,000 people or less, which makes up all but six of the state's fire districts.
