

City of Conover dedicates new Fire Engine. On October 30, 2009; City of Conover Officials dedicated their newest piece of firefighting apparatus, a 2009 Pierce Contender Fire Engine.

The Engine will be stationed at Fire Station 1 and replaces a 1990 Pierce Engine that has been moved to reserve status.

Engine 1 is equipped with a 1500gpm fire pump, carries 750 gallons of water, Husky Foam System, 6000W Wilbur Nightscan Light Tower, 10Kw Hydraulic Generator, Six Person Enclosed Cab and Full Height / Full Depth Compartments. Along with firefighting equipment, Engine 1 is also equipped with Hydraulic Vehicle Extrication Tools and equipment, Rapid Intervention Team equipment, and Life Safety Ropes and is equipped with an Automatic External Defibrillator (AED) and Basic Life Support medical equipment.

Pictured with Fire Engine 1 are Councilman Lee Moritz, Jr., City Manager Donald Duncan, Fire Chief Mark Hinson, Mayor Bruce R. Eckard, Mayor Pro Tem Johnny L. Brown and Assistant Fire Chief Ronald Kaylor.
