

Incident 016693; Motor Vehicle Crash; I-40 WB MM130; 02-18-2009

February 18, 2009. Motor Vehicle Crash with injury reported on Interstate 40 at Exit 130. Station 15 dispatched to a reported MVC on I-40 EB MM130. Upon arrival, fire department personnel found a two vehicle crash with one patient still entrapped with one vehicle. Fire Department personnel established Command and began assessing patients and stabilization of the vehicle with the patient entrapped. The other vehicle was 100 yards to the west of the crash scene and the driver of the vehicle had walked to the location of the other vehicle.

Fire Department began extrication once the patient and vehicle were stabilized. Total extrication time was approximately 10 minutes. Crash occurred during a period of heavy rainfall in the area. Patient transferred to EMS for treatment and transport. Station 15 assignment complete.

Apparatus on scene: 15-Engine 1 and 15-Engine 2
